Mission Statement

Our Vision

Our vision as a plant engineering company is to play an innovative and pioneering role together with our customers in the realisation of efficient and environmentally friendly projects. We embrace future trends by leveraging them - for ourselves, our customers, partners and suppliers. Through long-term, fair and balanced customer and supplier relationships, we create a healthy economic basis for sustainable growth to become the top 100 plant engineering company in Austria. We maximise the potential of our employees through leadership at equal level and an inspiring working environment in which our employees are valued, respected and supported in their development. Our products and services fulfil high ecological and social standards in order to promote a sustainable future for generations to come.

Our Mission

We are the partner for planning, realisation and service of industrial plants.

We want to realise our customers' plans with excellent plants, solutions and services and thus improve the security of supply of biotech products, renewable energies, microelectronic components and mobility in Europe. Our mission is to enable our customers to achieve excellence with full commitment, our own knowledge and the ability to network. We recognise the challenges, develop solutions and implement them together with our customers.

Our Values

Integrity

We act honestly, transparently and ethically in all our business practices and relationships.

Openness

Through transparent and honest communication, we create an environment that promotes security and trust.

Reliability

We always endeavour to fulfil our obligations on time and to the highest quality - you can rely on us!

Innovation

We embrace future trends with curiosity and the courage to change. Our pioneering spirit drives us to develop progressive new solutions!

Social responsibility

We are actively involved in society, support local charitable initiatives, ensure fair working conditions and promote diversity and inclusion in the workplace.

Balance

We live fair relationships at eye level and promote a healthy performance principle, taking into account the work-life balance.

Appreciation

We value respect and honesty. We recognise success and engage in constructive dialogue.

In order to realise our vision and successfully implement our mission, we rely on motivated and competent employees.

To do so, we pursue an ongoing strategy and planning process.
